

# Transfer Partnership Application with the Maricopa Community Colleges

The Maricopa Community Colleges have found that the most rewarding and fruitful partnerships demonstrate both sustainability and substantial depth, in terms of mutual educational goals and student support. Partnerships that offer multiple opportunities for engagement, including student and faculty exchanges and on-going programming development are of strong interest. As part of the Maricopa Community Colleges efforts to develop a strategic approach to transfer partnership evaluation process, the Center for Curriculum and Transfer Articulation has established Selection Criteria to ensure that all potential transfer partnerships are assessed in alignment with the District's strategic priorities.
